

# Check Out & Check In Process

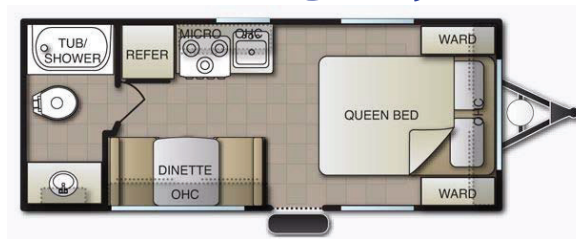

To ensure you have an understanding of the rental and all functions that it has equipped, there will be a 30+ min check out process involved. The check out process will have a check list that both the customer and ODR employee will go over and sign that the travel trailer is in proper working condition.

A check in will also be given on the return date of the trailer. Any issues of cleanliness or damage to the trailer will be the sole responsibility of the customer. Please allow 30+ minutes for this process.

## Information

Trailers require full payment in order to reserve (no refunds). Vehicle must have a Class 3/Class C hitch, Brake Controller and 7-pin round electrical hookup in order to tow.

We highly recommend that you contact your insurance company to ensure coverage of the travel trailer.

It is recommended you size up your vehicle to the travel trailer beforehand to fix any possible issues you may have on day of pick-up. Any issues will result with loss of rental deposit. Please call the office to make sure specific travel trailer is present.

California Law 26303 states: "Every trailer coach and every camp trailer having a gross weight of 1,500 pounds or more, but exclusive of passengers, shall be equipped with brakes on at least two wheels which are adequate, supplemental to the brakes on the towing vehicle, to enable the combination of vehicles to comply with the stopping distance requirements of Section 26454."

### \*ADDITIONAL FEES:
