

## Check Out & Check In Process

To ensure you have an understanding of the rental and all functions that it's equipped with there will be a 30+ minute check out process involved. The check out process will have a check list that both the customer and the ODR employee will go over and sign that the boat is in proper working condition.

A check in will also be given on the return date of the boat. Any issues of cleanliness or damage to the boat will be sole responsibility of the customer. Please allow 30+ minutes for this process.
